

pediped® Sizing Chart

BEFORE YOU START –

Is this page printed correctly?

Check your printer options and make sure that "page scaling" is set to "none."

5 Easy steps to find your child's size:

1. Cut along the dotted line.
2. Place the sizing chart on the floor with a flat surface against the wall.
3. Place the child's foot on the chart, heel against the wall. The child should be standing, foot as straight as possible.
4. Draw a line in front of the child's longest toe. Repeat for the other foot. (Measure both feet for accuracy, if one foot is larger, choose the larger foot.)
5. Look for the nearest size that **allows 1/8" to 1/3" (3-.85 cm) of extra space** for your child's foot.

Wear the shoes longer: The pediped Flex Fit System™ allows you to adjust the fit of our shoes. Each pair of Flex® shoes (except sandals) comes with an extra insole, which allows for a custom fit.

Size	Age
L	18-24
M	12-18
S	6-12
XS	0-6
